PRESS RELEASE

Halifax, April 3, 2007

Gammon Lake Resources Board of Directors Appoints Russell Barwick as CEO

Gammon Lake Resources Inc. ("Gammon Lake") (TSX:GAM and AMEX:GRS) is pleased to announce that the Company's Board of Directors has appointed Mr. Russell Barwick as Chief Executive Office (CEO) and Director of the Board, effective today. Mr. Barwick will be based out of Gammon Lake's corporate head office in Halifax, Nova Scotia. With more than 33 years of experience in the mining industry, he brings to Gammon Lake the experience and skills to grow the Company while maximizing the inherent value of the existing assets through optimization processes and organic growth.

Mr. Barwick is a high profile executive and mining engineer with extensive experience planning and developing mining operations. He recently completed a four year tenure as Executive Vice President and Chief Operating Officer of Wheaton River Minerals-Goldcorp. Mr. Barwick continued to hold this position in the new and expanded group, following the merger with Goldcorp Inc., and was intimately involved in the significant acquisition and organic growth process of the Wheaton-Goldcorp group since early 2003.

Prior to joining Wheaton River, Mr. Barwick held the position of Managing Director and CEO of Newcrest Mining; at that time the second largest gold mining company in Australia. He has also worked for Rio Tinto and for over 16 years with Placer Dome, where he became Managing Director of the then Placer Business units in Papua New Guinea.

Commenting on Mr. Barwick's appointment, Company Chairman and President, Mr. Fred George stated, "We are very pleased to have attracted such a high caliber individual with extensive industry experience and a proven track record. Mr. Barwick will play a key role in delivering Gammon Lake's operational strategies and production growth at our Ocampo and El Cubo mining operations."

Mr. Brad Langille will step down as CEO, but will continue to function as a consultant and advisor to Gammon Lake. The Board of Directors would like to thank Mr. Langille for his dedication and for the integral role he has played in the Company's significant growth and operational success during his 10 year tenure. Since the Gammon Lake's inception, Mr. Langille and Mr. George have successfully advanced the Company from project start up to commercial production and a market capitalization of more than \$2.0 billion.

About Gammon Lake

Cautionary Statement

Cautionary Note to U.S. Investors – Under a Multi Jurisdictional Disclosure System (the “MJDS”) adopted by the United States, Gammon Lake is permitted to prepare its mining disclosure in accordance with applicable Canadian securities laws. Consequently, this press release referred to herein, may contain disclosure that is different than, or in some cases not permitted by U.S. securities laws. For example, the United States Securities and Exchange Commission (the “SEC”) permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. Under Canadian securities laws, Gammon Lake is permitted to use certain terms, such as “measured,” “indicated,” and “inferred” “resources,” that the SEC guidelines strictly prohibit U.S. registered companies from including in their filings with the SEC. U.S. Investors are urged to consider closely the disclosure in Gammon Lake’s Annual Report on Form 40-F (File No. 001-31739), which may be obtained from Gammon Lake, or from the SEC’s website at <http://www.sec.gov/edgar.shtml>.

No stock exchange, securities commission or other regulatory authority has approved or disapproved the information contained herein.

This News Release includes certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 and “forward-looking information” within the meaning of applicable Canadian securities legislation. All statements other than statements of historical fact, included in this release, including, without limitation, statements regarding the annualized production run rate at the Ocampo and El Cubo Mines, potential mineralization and reserves, exploration results, and future plans and objectives of Gammon Lake Resources, are forward-looking statements (or forward-looking information) that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from Gammon Lake’s expectations include, among others, risks related to international operations, the actual results of current exploration activities, conclusions of economic evaluations and changes in project parameters as plans continue to be refined as well as future prices of gold and silver, as well as those factors discussed in the section entitled “Risk Factors” in Gammon Lake’s Form 40-F and Annual Information Form as filed with the United States Securities and Exchange Commission. Although Gammon Lake has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated or intended.

There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Gammon Lake does not undertake to update any forward-looking statements that are included herein, except in accordance with applicable securities laws.
